Dear Tom,

Just a quick note to let you know that we are very pleased in the early stages of our business relationship. Machines were brought into our facility in a smooth and efficient transition. Your staff has followed through on every commitment made by you and your company. We are pleased to be getting excellent service while, at the same time, enjoying a significant cost savings over our old agreement. I look forward to a long and mutually beneficial partnership. Thanks again.

Sincerely,

Ronald
