

MimioVote

DESCRIPTION

The MimioVote™ assessment system makes student assessment fast, flexible, and easy. Create tests with custom or standardized content, and get results in real time, whenever you like. Lead tests yourself, or let students pace themselves. The software automatically configures the clicker buttons students need for each test, and the handheld devices automatically renumber themselves when returned to their recharging tray. The MimioHub™ wireless receiver integrates automatically with the MimioVote system, allowing it to send data instantly to your computer.
