

Budget Document Technology  
Attn: Ed Platts

To Whom It May Concern,

Our firm has been using Budget Document Technology for our Copier needs for the past four years. Overall they have been wonderful to work with. From the front end when trying to decide which equipment we need to the various financing options through delivery, and finally with service and technical issues they go above and beyond. They are quick to respond to both technical and billing inquiries and resolve it satisfactorily in all cases.

We would recommend Budget Document Technology for copier needs to any firms in the area looking for this type of equipment.

Sincerely,

*The Swanson Group LLC*

Tabitha Swanson, CPA
